

BIOIONIX

a more perfect solution

Progressive companies have added a new pillar to their core values. This new pillar is sustainability and in general is a commitment to transparency to all consumers, employees and shareholders to the environment and society. BIOIONIX® is an FDA approved system that replaces harmful and corrosive chemicals and detergents. Our all natural and safe SuperOxidants™ are ideal in food processing, animal agriculture, aquaculture, greenhouse crop farming and any enclosed buildings where humans work and gather. Many research projects have proven our SuperOxidants™ can eradicate and kill surface and airborne pathogens and diseases like listeria, salmonella, Red Tide, Avian influenza (bird Flu), Swine Flu, covid, molds, fungi and many more. If Sustainability is your core pillar then BIOIONIX® will be the perfect solution for you.

a more perfect solution...Measurable Sustainability

100% Natural SuperOxidants™

Non-
Corrosive

100X
more effective
than chlorine
bleach

FDA/USDA
Approved

WATER AND SALT

The ONLY ingredients needed for our reactor to produce limitless amounts of disinfectants that are non-toxic, non-corrosive, and 100 times as effective as chlorine bleach.

BIOIONIX® is the ONLY industrial scale producer of Electrolyzed Water Solutions in the world.

BIOIONIX® Makes the World's Food and Water Supply Safer!

Our proven, approved and patented technology uses non-chemical, natural SuperOxidants to disrupt and destroy the DNA and RNA of pathogens!

Cleaner
Safer
Healthier

Proven Technology and Knowledge:

- ⚡ Patented and proven, non-chemical systems are FDA and USDA approved as a chemical-free solution for disinfection in food manufacturing.
- ⚡ The BIOSAI^{F24/7} artificial intelligence software gives continual system monitoring, data collection and maintains performance.
- ⚡ BIOSAI^{F24/7} allows for remote commissioning, monitoring, configuring and installation!
- ⚡ More than technology! 24/7/365 Full-service support by a team of experts: engineers, food safety, chemists and animal health.

BIOIONIX® Benefits:

- ⚡ Meet Sustainability Initiatives: No chemicals added, reuse water
- ⚡ Save Money: Eliminate downtime, chemical costs, reduce brine disposal
- ⚡ Improve Food Quality: Increase shelf life, cleaner labels, improve taste
- ⚡ Peace of Mind: Continuous 24/7 monitoring
